SKILLS

Languages: Java, C, PHP, JavaScript, TypeScript

Frameworks: Spring Boot, Spring, JEE, Hibernate, JPA, JUnit 5, Mockito, Selenium, Laravel, Angular, React, SOAP/JAXB

Databases: Oracle, PostgreSQL, MySQL, MongoDB

Tools: Git, Docker, Linux, Maven, Jira, Liquibase, Jenkins, GitLab

Practices: OOP, TDD, DDD, Design Patterns, Agile, CI/CD

EXPERIENCE

EURAFRIC INFORMATION *Software Developer* Sep 2025 – Present

Develop and maintain enterprise banking applications using Java, Spring Boot, Angular, Oracle and JEE.

Collaborate with development, DBA and deployment teams across multiple enterprise projects.

Develop backend services and integrate them with Angular frontends.

Work with Oracle databases and enterprise deployment environments.

Contribute to testing, code quality and CI/CD processes.

EURAFRIC INFORMATION *Software Developer Intern* Apr 2025 – Jul 2025

Contributed to the development of a banking settlement system for managing payments between banks.

Developed Spring Boot backend services and Angular interfaces with multi-criteria search and dynamic data tables.

Implemented JWT authentication, role-based access control and user management features.

Contributed to the administrator dashboard and application containerization with Docker.

ECOWATT *Full-Stack Developer Intern* May 2024 – Jul 2024

Developed web application features using Laravel, React.js and MySQL.

Implemented backend functionality and database operations.

Developed responsive frontend components with React.js.

PROJECTS

API STRESS LAB *Java Library · JUnit 5 · Spring Boot* 2026

Java library for API load testing integrated with JUnit 5.

Designed annotation-based configuration with **@LoadTest** and **@EnableLoadTesting**.

Supports request-count and duration-based load tests with configurable concurrency and timeouts.

Provides throughput, response-time, success-rate and HTTP status-code statistics.

GitHub: github.com/hamzalamin/API-StressLab

ITLENS *Survey Management Application · Java · Spring Boot · Angular* 2024

Developed REST APIs using Spring Boot and Spring Data JPA with a dynamic Angular frontend applying TDD principles.
